

## 1892 ALLOTMENTS -- IOWAY NATION of KANSAS & NEBRASKA

This is not an exact transcription of any single document.

This allotment list was compiled from 5 sources, 2 of which were the old handwritten & 1 later version typed, all 3 for Agency Records, and names were cross-checked against annuity records, all from microfilms at Horton Agency. They included the exact land descriptions which are not transcribed here, due to progressive changes during the allotment period. Ages on Agency records fluctuate on various records. As careful as I tried to be, there may be errors in this list that require corrections.

END OF ALLOTMENT LIST --

(Except for those entitled by birthday but not allotted due to lack of land.)

Below is an excerpt from; "Kansas Historical Collections," Vol.XIV 1915-1918, p.537.

1893 Agent J. A. Scott, Annual Report;

"Under orders from the Office of Indian Affairs, I allotted land to 142 Iowa Indians during the year 1891-92. Although there were then ten more new-born children entitled to allotments, they could not be made, for the reason that there was no land for them, the reservation upon survey having been found to contain 4,600 acres less than reported in official statements. Up to date eight more children have been born, making eighteen in all unprovided with land, and for whom a money consideration should be arranged, as I think is provided for in the act under which the lands were allotted. .... Knowing the difficulties I had to contend with in this work, I commenced it with the determination to allow no real cause for complaint to exist, and would at any time have been glad to have it investigated by a competent officer."

(Note; There is a great fold-out map of the Pottawatomie Allotments in Jackson Co., Kansas in this chapter, but not for the Ioway.)

Below; "Geo. Nuzum's Biography of Iowa Indians of Kansas & Nebraska, 1906," gives a list of 13 who were entitled to land at time of allotment and failed to get it at that time. Nuzum lists their exact birthdates, which I did not include here.
